December 2018

Dear Friend of Stanica,

As you can see from the attached photographs, fit out works on the new building at St Briavels are progressing at an ever increasing pace. The building is watertight, internal walls & partitions are being constructed and the first fix electrical and plumbing works are almost completed. The planning and management of all of this work, especially the detailed specification of all the finishing materials, hardware and colours has taken huge amounts of time and effort. We have also faced a number of unforeseen challenges; local building control regulations have required us to install a comprehensive land drainage system on the site, special water tanks have had to be installed for the fire brigade to access in the unlikely event of a fire; in addition numerous other specific requirements which have had to be incorporated into the plans.

With the generosity of all our donors the fundraising efforts are proving successful. In total in excess of £1,310,000 has already been raised. 2018 has proved a record fundraising year for the project with over £433,000 being raised in the past 11 months alone.

In order to complete the new building and have it furnished for use in the summer of 2019 we still need to raise a further £150,000. If the current momentum and support is maintained we will achieve this goal.

The St Briavels Fund Project team and all the young people who will use this facility in the future, would like to thank you for your help and generosity in seeing this project move decisively forward. We are sure that this short-term target can be met, the new building will be completed for use in the summer of 2019, and we can then turn our attention to Phase III, the final phase, of our project, the complete and essential refurbishment of the original building on the site.

On behalf of the Board of Trustees of the Polish Scouting Association (UK Region) and the St Briavels Project team I wish you all a wonderful Christmas and New Year and thank you once again for your outstanding financial support and generosity that has made all this possible.

Czuj! Czuwaj!

Anna Bnińska-Gębska hm
